STRATEGIC BUSINESS PLAN & EXPANSION ROADMAP

FY 2026 — FY 2028: Scaling Sustainable Biofuel Aggregation

Entity Name: BIOMASS TRADERS PRIVATE LIMITED

Corporate Identification Number (CIN): U46610TG2024PTC185432

Registered Corporate Address: Plot No. 42, Quantum Tech Park, Hitech City Phase II,
Madhapur, Hyderabad, Telangana, 500081

Document Version: v2.4 (Executive Review Baseline)

Date of Compilation: 15th June 2026

1. EXECUTIVE SUMMARY

BIOMASS TRADERS PRIVATE LIMITED was incorporated on 12th May 2024 to systematically modernize the unorganized solid biofuel aggregation ecosystem across South India. By developing an asset-light tech platform connecting agricultural residue producers directly with processing plants and industrial consumers, the Company ensures quality parameter enforcement and logistical continuity.

This document presents the strategic scaling playbook as the enterprise enters its third year of operational execution. Having successfully stabilized operations within our core Telangana footprint, the roadmap charts our geographic extension vectors, infrastructure localization, and intermediate capital deployment profiles.

2. MARKET OPPORTUNITY & GROWTH VECTOR

Industrial demand for solid biomass (pellets and briquettes) has surged due to strict statutory compliance mandates forcing thermal co-firing switches. However, commercial consumers face severe procurement bottlenecks due to high moisture variability and seasonal supply crashes.

2.1 Regional Expansion Targets

To eliminate these seasonal procurement gaps, the Company is deploying regional collection hubs near major agricultural clusters. Over the next rolling 12-month period, operational footprints will be established within the following targeted corridors:

- **Telangana Baseline Corridors:** Strengthening deep procurement routes across Mahbubnagar, Nalgonda, and Karimnagar.
- **Andhra Pradesh Ingress:** Establishing logistical consolidation nodes within Kurnool and Guntur by Q3 FY 2026 to capture cotton and chili residue pipelines.

3. FINANCIAL PROJECTIONS & CAPITAL TARGET

The company's financial matrix indicates rapid revenue escalation driven by automated repeat supply allocations. Financial audits and projected forward sheets map out the following growth milestones:

Financial Metric	FY 2024-25 (Audited)	FY 2025-26 (Audited)	FY 2026-27 (Projected)	FY 2027-28 (Projected)
Total Gross Revenue	INR 12,000,000	INR 35,000,000	INR 95,000,000	INR 240,000,000
EBITDA Margin (%)	4.2%	7.8%	11.4%	14.5%
Total Biomass Moved (MT)	1,850 MT	5,380 MT	14,600 MT	36,900 MT
Active Supply Aggregators	14 Nodes	38 Nodes	90 Nodes	220 Nodes

3.1 Active Investment Allocation (Target Capital Round):

To aggressively unlock the planned Andhra Pradesh corridors and expand our underlying tech stack, the Board of Directors has authorized the management team to secure a Seed Extension round of ****INR 15,000,000 (One Crore Fifty Lakhs Only)**** in exchange for preferred equity. This funding allocation will be fully deployed within 9 months of capital close.

4. REGULATORY ALIGNMENT & ELIGIBILITY STATUS

As a registered Private Limited Company incorporated on 12th May 2024, the enterprise operates well within the 10-year age criteria required for official **Startup India DPIIT Recognition**. The company has formally initiated submission routines to claim full operational benefits under the Inter-Ministerial Board tax exemption frameworks to maximize cash flow retention during scaling phases.
