

PROPRIETARY & CONFIDENTIAL

INDUSTRIAL BIOMASS OFFTAKE AND PURCHASE AGREEMENT

Commercial Supply Framework for Solid Biofuel Briquettes

SUPPLIER:

BIOMASS TRADERS PRIVATE LIMITED

Plot No. 42, Quantum Tech Park, Hitech City Phase II, Madhapur, Hyderabad, Telangana,
500081

BUYER:

DECCAN TEXTILES & SPINNERS PRIVATE LIMITED

Sy No. 412 & 413, Industrial Progress Area, Pochampally, Yadadri Bhuvanagiri,
Telangana, 508284

Agreement Reference Number: BT-DTS-2026-089

Execution Date: 10th July 2026

This Industrial Biomass Offtake and Purchase Agreement (the "Agreement") is finalized and executed on this **10th July 2026** by and between the Supplier and the Buyer defined on the preceding cover page.

RECITALS

WHEREAS, the Supplier manages a centralized distribution network for standardized solid agricultural residue fuels, providing sustainable biomass supply chains; and

WHEREAS, the Buyer operates a massive industrial textile manufacturing facility utilizing captive solid-fuel thermal boilers, and intends to substitute fossil coal with sustainable biomass briquettes to fulfill carbon neutral mandates;

NOW, THEREFORE, the parties mutually record their binding understanding under the following operational terms:

1. SUPPLY QUANTITY & SCHEDULE

1.1 Annual Commitment: The Supplier covenants to deliver, and the Buyer covenants to purchase a guaranteed minimum volume of **1,200 Metric Tons (MT)** of agricultural residue briquettes per rolling calendar year during the active tenure of this agreement.

1.2 Monthly Allocation Matrix: Deliveries shall be paced out in equal monthly increments of approximately 100 MT, managed via rolling logistics notifications issued by the Buyer 7 days prior to each calendar month.

2. COMMERCIAL TARIFFS & DELIVERY INGRESS

2.1 Pricing Scale: The standardized purchase tariff is locked at **INR 7,200 per Metric Ton (MT)***, applicable on a Delivered-at-Place (DAP, Incoterms 2020) basis to the Buyer's thermal boiler facility in Pochampally, Telangana. This price is exclusive of statutory state GST structures.

3. QUALITY ENFORCEMENT & STRICT PENALTY THRESHOLDS

3.1 Core Deliverable Metrics: All supplied material must strictly meet the following chemical limits: Gross Calorific Value (GCV) > 3,800 Kcal/kg; Total Ash Content < 8% by mass volume; and Total Moisture Composition < 10%.

3.2 Moisture Penalty and Financial Liquidated Damages (High-Risk Ingress Clause):

Quality validation logs shall be extracted upon vehicle arrival at the Pochampally warehouse. If analysis reveals a moisture level exceeding ****12.0%****, an automatic price reduction of ****20%** on the affected lot tariff** will instantly execute. Furthermore, if moisture levels exceed ****15.0%****, the Buyer reserves an absolute right to reject the entire logistical cargo batch. In the event of such a rejection, the Supplier shall be strictly liable to pay a flat penalty of ****INR 25,000 per delayed day**** directly to the Buyer to compensate for industrial boiler downtime and alternative fossil fuel sourcing outlays.

4. INTELLECTUAL PROPERTY & NETWORK INTEGRITY

4.1 Data Shielding: The Buyer explicitly acknowledges that the specific farm-gate source locations, aggregator nodes, and transport tracking algorithms utilized by the Supplier constitute highly valuable private commercial assets. The Buyer agrees never to circumvent or replicate this supply layout during the contract term and for a period of 3 years post-termination.
