

STRATEGIC GROWTH BLUEPRINT

BIOMASS TRADERS PRIVATE LIMITED

Comprehensive Business Plan & Projections | FY 2026-27

Target Operating Cycle: Financial Year 2026-27 (FY27)

Corporate Entity ID (CIN): U46610TG2024PTC185432

GSTIN Registration Node: 36AABCB4281K1ZM

MSME Core ID: UDYAM-TG-05-0043281

Registered Office Address: Plot No. 42, Quantum Tech Park, Hitech City Phase II, Madhapur, Hyderabad,
Telangana, 500081

Document Classification: Highly Confidential - Investor & Board Review Matrix

1. EXECUTIVE SUMMARY & CORE MANDATE

Following an exceptional operational expansion in FY 2025-26 where aggregate gross turnover scaled to **₹20.34 Crores** with a total material volume movement of **42,500 Metric Tons (MT)**, Biomass Traders Private Limited enters FY 2026-27 structurally positioned to lock down heavy-industry market leadership in South India. This business plan maps the execution blueprint required to scale total supply chain off-take to **75,000 MT**, capturing structural thermal conversion demands across regional multi-sector boiler plants.

1.1 VALUE PROPOSITION & MARKET OPPORTUNITY

The enforcement of local clean energy compliance regulations, alongside international commitments to reduce conventional fossil-fuel parameters, has forced heavy manufacturing units (such as textile mills, cement plants, and paper processing installations) to replace a mandatory percentage of coal arrays with unrefined solid biofuels. Our competitive moat rests upon transforming an unorganized seasonal agro-waste supply layer into a standardized, predictable, high-calorific manufacturing ingress asset.

1.2 STRATEGIC PILLARS FOR FY 2026-27

- 1. **Logistical Route Densification:** Maximizing point-to-point freight routing out of core farming clusters in Telangana directly to key consumer nodes, driving down transport expenditures per metric ton.
- 2. **Automated Inventory Routing:** Deploying predictive inventory buffers across localized collection points to counter seasonal harvest fluctuations and preserve continuous supply guarantees.
- 3. **Contract Consolidation:** Transitioning open transaction balances into multi-year, fixed-volume legal frameworks with heavy continuous-process industrial manufacturers.

TARGET REVENUE	TARGET EBITDA	TARGET NET PAT	TARGET VOLUME
₹36.38 Cr	₹4.10 Cr	₹2.85 Cr	75,000 MT

2. MARKET EXECUTION & SEGMENT MODALITIES

To predictably ingest, stabilize, and route 75,000 MT of bulk agricultural bio-assets during the upcoming operating window, supply chain distribution mechanics are explicitly mapped across three core production verticals. This clear segmentation allows our RAG architecture grounding layer to handle precise margin optimization queries without contextual overlap.

2.1 TARGET VOLUME DEPLOYMENT & REALIZATION TARGETS

BIOFUEL CATEGORY SEGMENT	HSN CODE	TARGET VOLUME (MT)	PROJECTED RATE / MT	PROJECTED NET VALUE (INR)
Premium Paddy Husk Briquettes	44013100	34,000	₹5,150.00	17,51,00,000.00
Industrial Mustard Straw Pellets	44013900	25,000	₹4,900.00	12,25,00,000.00
Shredded Agro-Waste Fuel Matrix	44011200	16,000	₹4,135.00	6,61,60,000.00
Consolidated Projection Summary Target		75,000	—	36,37,60,000.00

2.2 INDUSTRIAL CLIENT ACQUISITION PROFILE

Sustained off-take deployment will be backed by expanding supply chain depth across verified premium accounts. The existing institutional core layout will absorb over 80% of targeted volume metrics, with localized contract expansions distributed as follows:

- **Deccan Textiles & Spinning Mills Ltd (Telangana):** Scaling baseline off-take contracts from 1,200 MT/month to a structured institutional lock-in of 2,200 MT/month.
- **Sri Rama Cement Corporation Ltd (Andhra Pradesh):** Executing specialized heavy industrial kiln procurement agreements targeting 20,000 MT annually.
- **New Continuous-Process Boiler Facilities:** Onboarding 6 mid-tier pharmaceutical and chemical distillation units across the Pashamylaram and Jeedimetla industrial segments.

3. PRO-FORMA FINANCIAL PLAN & PROJECTIONS

The financial modeling for FY 2026-27 is anchored directly to the data metrics verified in prior operating years, utilizing structured scaling margins to calculate working expenditure limits.

3.1 PROJECTED PROFIT AND LOSS STATEMENT (FY 2026-27)

PRO-FORMA INCOME PARAMETERS	FY 2026-27 (TARGET INR)	FY 2025-26 (AUDITED INR)	VARIANCE % TARGET
Gross Revenue From Operations	36,37,60,000.00	20,34,00,000.00	+78.84%
Total Direct Operating Costs	29,48,00,000.00	17,10,00,000.00	+72.40%
Cost of Agricultural Procurement	26,38,00,000.00	15,25,00,000.00	+72.98%
Freight, E-Way Ingress & Fleet Logistics	3,10,00,000.00	1,85,00,000.00	+67.56%
Employee Benefits & Talent Hunt Reserves	1,25,00,000.00	65,00,000.00	+92.30%
Administrative Leases & Field Centers	1,55,00,000.00	48,00,000.00	+222.91%
Projected EBITDA Matrix Performance	4,09,60,000.00	2,11,00,000.00	+94.12%
Depreciation & Asset Amortization	16,00,000.00	10,00,000.00	+60.00%
Finance / Working Line Credit Cost	14,00,000.00	8,00,000.00	+75.00%
Projected Profit Before Tax (PBT)	3,79,60,000.00	1,93,00,000.00	+96.68%
Corporate Tax Provisioning (25%)	94,90,000.00	48,25,000.00	+96.68%
Net Profit After Tax (PAT) / Retained Surplus	2,84,70,000.00	1,44,75,000.00	+96.68%

3.2 CAPITAL DEPLOYMENT ALLOCATION STRATEGY

To execute this growth trajectory without experiencing working capital friction, the targeted cash reserves will be systematically directed toward specific strategic areas:

- **Advanced Field Center Automation (₹65 Lakhs):** Equipping primary consolidation warehouses with moisture-control instruments and multi-stage sorting bays.

- **Sourcing Fleet Expansion (₹50 Lakhs):** Securing long-term contractual control over commercial multi-axle freight vehicles to protect delivery margins during peak harvest seasons.
- **Operational Liquidity Anchor (₹1.69 Crores):** Maintaining an active working cash buffer to support prompt outlays for farming aggregation networks, optimizing trade credit cycles.
